2. Citations and explanations (Rule 70.7)

The citations as identified in the International Search Report do not disclose a releasable locking means for a pivotal gutter system, to lock the gutter in the first draining position. Therefore claims 1, 9, 10 and 16 are novel and inventive over the prior art.

Furthermore, the citations do not disclose a tool for effecting the movement of a gutter system that also includes a lock operating means. Therefore claim 17 is novel and inventive over the prior art.

Since the other claims depend from the fore mentioned claims, they too must be novel and inventive.
